

GERMAN STROKE SCHOOL

53RD ANNUAL CONFERENCE of the German Society of Neuroradiology

GOES INTERNATIONAL

neuroRAD.
2018

03.-06.10.2018 Frankfurt (Main)

CONGRESS PRESIDENT: Prof. Martin Wiesmann, Aachen

The neuroRAD meeting attracts more than 1.000 participants and is the largest neuroradiology meeting in Europe.

From this year on we also offer a highly attractive full program in English for colleagues from abroad: Refresh your knowledge with courses given by leading international and German neuroradiologists, see up-to-date science, or discuss interventional cases presented by experts in the field. Plus, time to relax and connect with your colleagues.

A special highlight is the German Stroke School (see rear page for more information)

GERMAN STROKE SCHOOL 2018

The neuroRAD 2018 comprises a full educational and scientific program in English language. In addition, the German Society of Neuroradiology features for the first time the **German Stroke School**: A most sophisticated hands-on simulation course for interventional stroke treatment.

This three days course consists of high-quality teaching and extensive hands-on training using the latest simulation techniques. It offers a unique simulation lab and provides candidates with more hours of guided hands-on training than any other thrombectomy course.

Comprehensive curriculum with all relevant topics including: Stroke Imaging, Pathophysiology, Neurovascular Anatomy, Carotid Stenosis, Interventional Treatment Techniques including Direct Thrombus Aspiration, Stent retriever Thrombectomy, Stenting, Flow Control, Complication Management

This course is aimed at young radiologists and neuroradiologists from all countries. Candidates must have angiographic experience to be eligible.

The number of participants is strictly limited. Vacancies will be assigned to eligible candidates in order of registration.

COURSE LANGUAGE:

English

COURSE FEE:

950,- € (including access to the neuroRAD 2018)
